

New Mexico Health Information Collaborative (NMIC)

Presents

The First Annual Users' Conference

The Health Information Exchange for all New Mexicans

Improving Quality, Efficiency, Safety, and Cost of Patient Care

Thursday, October 27, 2016

9:00 am—3:00 pm

(check in begins at 8:40 am)

New Mexico Medical Society

316 Osuna Rd NE, Suite 501, Albuquerque, NM 87107

Who Should Attend?

- Physicians and mid-level providers in any size or type of practice
- Support staff, including nurses, MAs, and other clinical staff
- Inpatient, outpatient, and emergency personnel
- Managed Care Organizations
- Quality Assurance administrators
- Office and practice managers
- Health IT professionals
- Public Health professionals
- Case Managers

Why attend?

- Benefit from the experience of other HIE users
- Review and research results about clinician stress and burnout related to poor interoperability
- Learn about Big Data's potential to transform health care
- Participate in thought-provoking user discussions
- Learn how data sharing benefits patients and health care teams
- Explore the National HIE Landscape
- Get an update on the expansion on New Mexico's HIE
- Discuss the HIE's role in Practice Process Improvement

About

Health Information Exchange (HIE) is an important tool to help you be successful in reducing redundant tests and procedures, facilitating efficient transitions of care, making diagnoses and care decisions based on more complete patient information at the point of care, and in supporting new accountable care and patient-centered medical home care models. The New Mexico Health Information Collaborative (NMHIC) invites you to attend our first annual HIE Users' Conference to participate in meaningful presentations and thoughtful discussions about the benefits, challenges, and solutions for interoperability and exchange of health information in New Mexico and surrounding communities. www.nmhic.org
