

New Mexico Health Information Collaborative (NMHIC)

Presents

The Third Annual Users' Conference

Uniting New Mexico: Health Information Interoperability in the Service of all New Mexicans

November 9, 2018

Join us at your choice of two locations:

Memorial Medical Center
2450 S. Telshor Blvd.
Las Cruces, New Mexico

CHRISTUS St. Vincent Regional Medical Center
455 St. Michael's Drive
Santa Fe, New Mexico

Who Should Attend?

- Physicians and mid-level providers in any size or type of practice
- Staff, e.g., nurses, medical assistants, case managers, and others
- Inpatient, outpatient, and emergency personnel
- Payers, insurers, and self-insured employers
- Quality assurance administrators
- Office and practice managers
- Health IT professionals
- Public health professionals

Why Attend?

Shared patient health information, accessible when and where needed, can inform healthcare decisions, reduce redundant tests and costs, provide statewide population health data, support public health, and facilitate value-based purchasing/accountable care organization arrangements.

The New Mexico Health Information Collaborative (NMHIC), your statewide health information exchange, invites you to share our vision of “**Perfectly Informed Health Care**” for all New Mexicans, regardless of where the care is provided.

Participants will:

- Explore the potential benefits of safe exchange of health information in our state, the Southwest region, and across the nation.
- Discuss emerging health information technologies, payment incentives, and regulations.
- Hear about health information initiatives at the state level.
- Identify “interoperability roadblocks” and brainstorm ways to remove barriers.
- Enjoy an inspiring keynote address by **Laura Adams, President & CEO, Rhode Island Quality Institute.**

Supported by: Memorial Medical Center, the Eli Washburn Memorial for Improving Patient Care through Patient-Centered Collaboration, CHRISTUS St. Vincent Health System, and *HealthInsight* New Mexico.
